Homework 5

Silver Level

Outcome 1 - Deciding on Profit or Loss

For the following, decide whether it is a profit or loss...

1

Buying Price = £137
Selling price = £162
Profit or Loss?

2

Buying Price = £64
Selling price = £48
Profit or Loss?

3

Buying Price = £216
Selling price = £212
Profit or Loss?

4

Buying Price = £28
Selling price = £23
Profit or Loss?

5

Buying Price = £99
Selling price = £87
Profit or Loss?

6

Buying Price = £56
Selling price = £72
Profit or Loss?

7

Buying Price = £64
Selling price = £81
Profit or Loss?

8

Buying Price = £185 468
Selling price = £160 987
Profit or Loss?

9

Buying Price = £2389
Selling price = £2995
Profit or Loss?

10

Buying Price = £28 million
Selling price = £32 million
Profit or Loss?

Outcome 2 - Calculating Profit or Loss

For each of the following, calculate the profit or loss...

1

Buying Price = £137
Selling price = £112
Calculate loss.

2

Buying Price = £24
Selling price = £58
Calculate profit.

3

Buying Price = £146
Selling price = £172
Calculate profit.

4

Buying Price = £108
Selling price = £86
Calculate loss.

5

Buying Price = £79
Selling price = £28
Calculate loss.

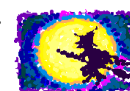

6

Buying Price = £64
Selling price = £83
Calculate profit.

7

Buying Price = £568
Selling price = £872
Calculate profit.

8

Buying Price = £125 895
Selling price = £160 493
Calculate profit.

9

Buying Price = £15 836
Selling price = £10 497
Calculate loss.

10

Buying Price = £11 million
Selling price = £57 million
Calculate profit.
