Mo Farah breaks British record with 3rd place London Marathon finish

Mo Farah became the fastest marathon runner in British history as he produced a promising and gutsy performance to finish third in his second London Marathon.

A "knackered" Farah crossed the line in a time of 2:06:21, comfortably clear of Steve Jones' 33-year-old British record, despite two mix-ups with water bottles in which he said marathon staff were taking pictures rather than helping him find his drink.

The race was won by Eliud Kipchoge, the Olympic champion and the man considered by many to be the greatest marathon runner ever, in a time of 2:04:17.

How much quicker was Eliud than Mo? Give your answer in minutes and seconds.

UK ticket holder claims entire £121.3m EuroMillions jackpot

A claim has been made for the £121.3m EuroMillions jackpot which was won by a UK ticket holder in Tuesday's draw, Camelot says. The lucky winner will be the third biggest lottery winner in UK history.

Shown below are some of the very lucky numbers. The fourth number is 50% more than the first number. The sixth number is one tenth of the fourth number. The seventh number is 4 more than the sixth number and the third number is 4 times more than the seventh number. Can you work out all the numbers????

Travel coast-to-coast by train and see America's greatest sites for just over \$200

Now, you can travel across America for just \$200 in a coast-to-coast experience by train in only 4 days (without stopovers), and get to witness some of the greatest sights that America has to offer.

Running from San Francisco to New York, the 3390 mile journey passes through 11 states - although the cost only covers regular coach seating for the whole trip!

What is the average speed of the train in miles per hour? Give your answer to the nearest whole number.

99.75% of coffee cups not recycled!

There are currently only a small number of specialist plants in the UK able to process the disposable used cups and, as a result, 99.75% don't get recycled. What proportion of cups currently get recycled?

Give your answer as a percentage, a decimal and a fraction.

ENVIRONMENT
