## Driver behaviour 'transformed' by A90 average speed cameras

The introduction of average speed cameras on the A90 between Dundee and Stonehaven has led to a "significant improvement" in driver behaviour.

Speed surveys suggest that 99 out of 100 vehicles are complying with the speed limit since the cameras first became operational.

(a) Write this figure as a decimal and a percentage.

60% of all vehicles were speeding prior to their installation.

(b) Write this figure as a fraction and a decimal.

## 50 Cent forgot he had a stash of Bitcoin worth a fortune

50 Cent has discovered that he is a Bitcoin millionaire, thanks to some long-forgotten album sales. In 2014, he released the album *Animal Ambition* and became the first artist to accept Bitcoin as payment.

The rapper received more than 700 Bitcoins under the deal, but then forgot about the Cryptocurrency. When 50 Cent originally signed the deal in 2014 they were worth \$662 each.

Currently, one Bitcoin is worth \$11 200!

How much money has 50 Cent made from the sales of this album?

## Man wins £1M on EuroMillions after nipping out to buy Skittles

A man ended up winning £1 million on the EuroMillions after he popped into a shop to buy a bag of Skittles and picked up a ticket.

Alex Best said he'd been getting by on his minimum wage job since graduation from the University of Bolton last September, saddled with £24 000 worth of debt.

A bag of Skittles costs 60p. After clearing his debts, how many bags of Skittles could Alex buy with his winnings?
