Now that the Christmas season is over some shops have started to display, wait for it, EASTER EGGS! This is despite the fact that Easter Sunday is not until the 1st of April.

Cadburys have launched a new special edition white chocolate creme egg with 3 different cash prizes to be won inside them. The lowest cash prize is £100, the middle prize is 10 times this amount and the top prize is double the middle prize.

A single creme egg costs 58 pence. How much profit would a very lucky customer make if they won the top prize from a single creme egg purchase?
