## Children in Need raises record on-the-night total

Children in Need raised a record-breaking £50.1m during Friday's show.

The total raised surpassed 2016's

previous on-the-night record of £46.6m.

Express this increase as a percentage of last year's total. Give your answer to 1 d.p.

You can still donate to Children in Need until the 31<sup>st</sup> of December by visiting: <http://www.bbc.co.uk/programmes/articles/1htCr816qQbq8Xg3MbFYWM2/text-to-donate>  
And you can even make a donation all year round on this webpage: [bbc.co.uk/pudsey](http://bbc.co.uk/pudsey)

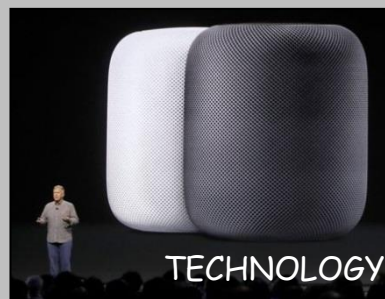

## Apple delays launch of smart speaker

Apple is delaying the release of its HomePod smart speaker until "early" 2018. The electronics giant said the device, which was due to be released in December this year, still needed development work.

The gadget was first unveiled in June this year when Apple said it would go on sale in the USA for \$349 and £350 in the UK.

Given the current exchange rate is £1 = \$1.32, how much would a British tourist save if they bought the Homepod smart speaker while conveniently on holiday in America? Give your answer in pounds and pence.

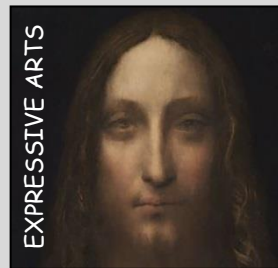

TECHNOLOGY

## "Salvator Mundi," by Leonardo da Vinci sells for record amount

The poster-sized painting, which features Jesus Christ holding a crystal orb, was sold for \$60 in a 1958 auction. Back then, it was dismissed as a copy! This week it was sold for a STAGGERING 7.5 million times more making it the most expensive painting ever sold at auction.

How much did the painting sell for this week? Give your answer in Scientific Notation if you can!

## Aldi Selling Incredibly Cheap 3D Printers

You wouldn't necessarily put Aldi and 3D printer in the same sentence but, as of today, they are selling one and for a fantastic price!

An equivalent model can be purchased from Curry's PC World for £899.97.

The Balco model offered by Aldi costs a third of this price.

How much are Aldi selling their 3D printer for?
