

MNU 4-10b

Assessment 3

Silver Level

Name: _____

Score: $\frac{\quad}{4}$

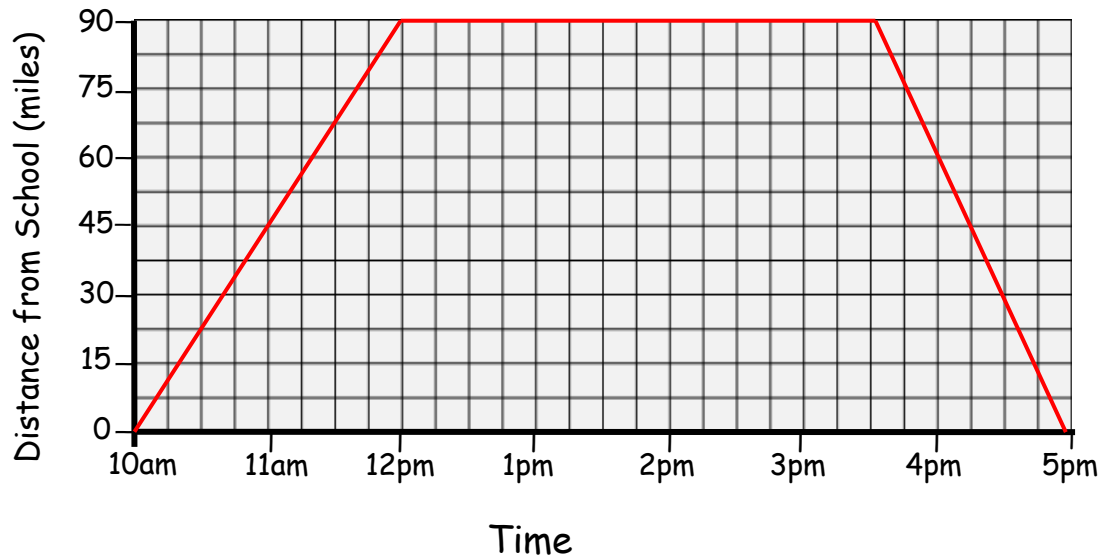

Percentage: %

Class: _____

Outcome 1 - Distance-Time Graphs

A group of pupils are going on a school trip to a museum. Their journey is shown in the graph below. They leave school at 8am and arrive back at 3pm.

- How far is the museum from the school?
- How long were the pupils at the museum?
- Calculate the average of the second part of the scooter journey.
- Did the bus travel faster on the way to the museum or on the return journey? GIVE A REASON FOR YOUR ANSWER
