France hits all-time highest temperature

France has officially had its hottest ever day with temperatures hitting 45.9°C.

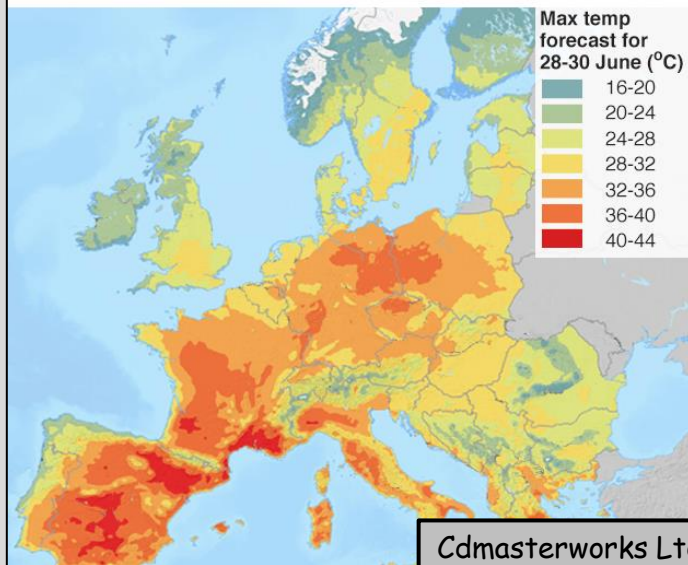

The new record was measured in the southern village of Gallargues-le-Montueux.

The lowest natural temperature ever directly recorded on Earth was -89.2 °C at the Soviet Vostok Station in Antarctica on the 21st of July 1983.

What is the difference between these two temperatures?

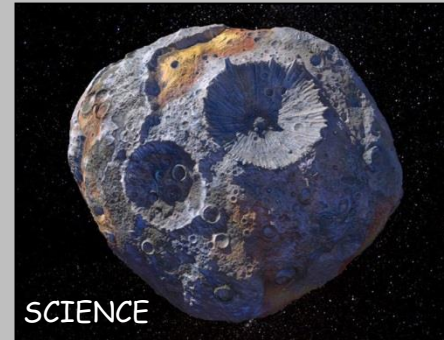

Heatwave gripping Europe

Asteroid filled with metals could make everyone on Earth a billionaire

NASA is planning to send a craft to an asteroid that is absolutely jam-packed with gold and platinum - so much so that, theoretically, it could make everyone on Earth a billionaire.

SCIENCE

The asteroid, named 16 Psyche, also contains iron and nickel, with a combined value of eight thousand quadrillion pounds.

(a) Write this amount as a number.

The population of earth is 7.53 billion.

(b) If the value of this asteroid was shared equally between everyone on earth how much would we all receive?
Give your answer in WORDS.

Trump says he wants to 'shake hands' with North Korea's Kim at DMZ

Donald J. Trump
@realDonaldTrump

POLITICS

After some very important meetings, including my meeting with President Xi of China, I will be leaving Japan for South Korea (with President Moon). While there, if Chairman Kim of North Korea sees this, I would meet him at the Border/DMZ just to shake his hand and say Hello(?!)

♡ 46.8K 10:51 PM - Jun 28, 2019

US President Donald Trump has invited North Korean leader Kim Jong-un to meet him at the fortified area that divides North and South Korea and shake his hand in what would be their third meeting in the space of a year.

This would be in between his meetings with President Xi of China and President Moon of South Korea.

If all 4 leaders just happened to be in the same room (however unlikely that would be!) and were to each shake each others hands exactly once, how many hand shakes would that be altogether?

Women's World Cup: Record-breaking peak of 7.6m watch England beat Norway

A record-breaking peak TV audience of 7.6 million watched as England beat Norway 3-0 to

reach the Women's World Cup semi-finals. This was 38.6% of the available audience.

Express the percentage of the available TV audience who watched the game as a fraction in its simplest form.
