More than a quarter of Scottish households not completed census

More than a quarter of households in Scotland have yet to complete the national census, new figures reveal.

Census letters were sent to 2.7million homes, representing 5.5million people, but an estimated 700 000 have still to submit them.

- (a) How many households have submitted their census return?
- (b) What percentage of Scottish households have still to submit their return?

Dumfriesshire First World War heroine to feature on new £100 note

Dumfriesshire born doctor, medical pioneer and noted suffragette Dr Flora Murray will feature on Bank of Scotland's £100 note when it is launched on the 9th of May.

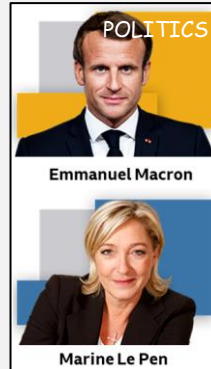

She is being honoured for her work in medicine and in women's rights with her portrait by Francis Dodd appearing on the reverse side of the new polymer banknote.

The new note, which will replace the cotton version, has a number of updated security features and will retain novelist and poet Sir Walter Scott, alongside an image of The Mound in Edinburgh, on the front.

- (a) How many 50p coins make up the value of a £100 note?
- (b) How many 10p coins make up the value of a £100 note?
- (c) How many 1p coins make up the value of a £100 note?

Emmanuel Macron the first sitting president in 20 years to be re-elected
Emmanuel Macron has won five more years as France's president after winning 58.55% of the total votes. His rival, Marine Le Pen, won the rest of the votes.
What percentage of the votes did Marine Le Pen receive?

Netflix hints at password sharing crackdown as subscribers fall

Netflix has hinted it will crack down on households sharing passwords as it seeks to sign up new members following a sharp fall in subscribers.

NETFLIX

ENTERTAINMENT

The number of households using the streaming service fell by 200 000 in the first three months of the year as it faced stiff competition from rivals.

Does your family share your Netflix password?

And how secure is it??? Shown below are the top 5 commonly used passwords in the world for 2021. Each of these passwords take a computer program 1 second to hack! Can you guess what the top 5 most commonly used passwords are?

Most commonly used passwords worldwide 2021

1. _____ (numbers only, 103 million + uses)
